## PROJECTS

---

### Awesome Quiz Application – Live Demo

- Developed an interactive quiz web application using HTML, CSS, and JavaScript with a clean user interface and responsive design.
- Implemented features including a 15-second timer per question, one-time answer selection, dynamic question progression, real-time score tracking, and replay option upon completion.
- Created game rules and state management logic to enhance user engagement and ensure smooth quiz flow from start to finish.
- Focused on clean DOM manipulation and real-time UI updates for seamless interactivity.

### AI Chatbot Web Application – Live Demo

- Built an interactive chatbot web application using JavaScript with real-time user interaction.
- Implemented message handling, user input processing, and dynamic response rendering.
- Designed a clean and responsive chat interface to enhance user experience.

### Real Estate Landing Page – Live Demo

- Designed and developed a modern real estate landing page using HTML, CSS, and JavaScript.
- Created visually appealing sections including hero banner, property highlights, services, and contact call-to-action.
- Focused on responsive design to ensure seamless performance across desktop, tablet, and mobile devices.
- Optimized layout and UI elements for better user engagement and smooth navigation.
